

Season 02 Week 14

Problem Statement

Ujjain is a very cunning and manipulative politician who is aiming the PM post in the forthcoming Indian General Election 2024. He decides to analyse the data from the opinion polls to prepare the necessary arrangements to win (like bribing and sabotaging). As his assistant, you are required to:

- Head over to <https://shorturl.at/hpqDW>
- Scrape the details of the overall **Seat projections** and **Vote share projections**.
- Scrape the details of the same for **Tamil Nadu**.
- Save these details as separate sheets in an excel file.
- Mail the file to uipath@rajalakshmi.edu.in (Refer the screenshot below)
